# SINCLAIR'S

Exquisite Frocks for Summer Wear

These are quite the prettiest Fracks we've seen for a long time and they are quite different in styles and materials. Silk and cotton crepes, printed, beaders and embroidered voiles are shown in positively bewitching shades. Lace and insertion and narrow frills are daintily applied while apron tunics, godet flares and labots are cleverly introduced \$7.50 to \$18.50

## Tub Frocks of Broadcloth

So fresh, so neat and goodlooking are these Broadcloth Frocks that one wants not one, but several. Striped or in plain colorings they are quite irresistible and the styles are most attractive \$7.50 to \$10.50

Washing ... Washing .. Washing!

BY THE side of many a stream in Europe you can see women doing the family wash in that old-back-breaking way. They carry, heavy baskets down to the stream—soak the clothes and scrub, scrub, scrub on the bare boards and hard rocks.

\*

Contrast that with the average Canadian home where washing is done in comparative ease. New labor-saving soaps and compounds eliminate much of the old scrubbing, even in homes where electricity does not eliminate it all. Wash-day is over in a few short hours. Time for pleasure, for other things.

Not only in washing, but in practically every phase of woman's work, new products and inventions are freeing her from home drudgery and slavery. She has leisure now and comforts that the average foreign woman cannot even imagine.

To a large measure this has been due to advertising. Advertising has familiarized Canadian women with new Inventions. Advertising has made possible the wide distribution of new products. By increasing sales, advertising has reduced the price of modern household utilities to the reach of the modes purse.

Advertisements add new ease to life. Read them.

### The Car of Tomorrow Is the New Studebaker of Today

THE New Studebaker cars are different. Different because they are 365 days ahead of current motor car design.

Long graceful bodies, including the exclusive Studebaker Duplex -an open-closed car combined; durable lacquer or enamel finish; the oval grouping of all instruments under glass; the lighting control on the steering wheel; new-type emergency brake; completely machined crankshaft; force-feed oiling system; and fullsize balloon tires, with steering gear especially designed for their use-these are a few of the features that distinguish the advanced design of the New Studebaker cars.

Recause the New Studebakers are the forerunners of a new era of motor car design it naturally follows that the Studebaker you buy today will be worth relatively more tomorrow than any other car.

Thousands have seen the New Studebaker cars. Thousands have endorsed their design and value by buying them. You should see the New Studebakers before you buy. It costs nothing to look

MARSHALL CUSHION

WHEN tiny tots jump gayly into a Marshall Mattress they don't have to wait long for the arrival of Mr. Sandman. Deep, sound, satisfying sleep—so essential to growing childhood—comes almost instantly!

Famous Marshall Springs-hundreds of them-each working silently and independently in its separate cotton pocket-soothe the tired bodies and induce them to refreshing, healthful young slumber. Healthful because a Marshall is sanitary and self-ventilating. Refreshing because there is no sag, squeak or lumpiness to disturb their sleep.

# Not a Cheaper Car but a Better Car at a Lower Price

THERE is nothing "cheap" about this new Oldsmobile Coach except its price. The body is by Fisher -sufficient guarantee of quality. It has the new onepiece ventilating windshield-the wonderful Duco Satin Finish-real plate-glass windows-handsome upholstery-carpet on the floor-deep, spring-cushioned seats -the new, permanent, pullman-type driver's chair-4 cowl lamps—and all the size and roominess of the average sedan. You never dreamed that a high-grade, sixcylinder, five-passenger closed car could be sold at the price of the new Oldsmobile Coach. Come in and be amazed at the value it represents. A demonstration will not obligate you in any way.

# Belleville Mausoleum

Consecrated to the respectful interment of loved human remains.

A memorial of massive, time-proof construction — cut-stone, marble,

-bronze

The elements of decay—damp, mould, and creeping vermin—positively and forever barred from entrance.

Within its hallowed walls one may come, in all weathers and at all sea-

sons, to lay tributes of deep undying love at the feet of those who have "Gone Before."

Belleville Mausoleum is non-sectarian. Each crypt, section and private room is alike sacred, whatever may be the creed of those who repose therein. Cost no more than earth burial. Maintenance of the building provided for in perpetuity without addition-

al expense. Construction of this beautiful building will be commenced within two

Over eighty Belleville families have already made their selections of crypts. The balance of space available is definitely restricted to less than the accommodation required for twenty families.

If you wish to participate in this opportunity to provide an ideal resting place for your loved ones before the actual need occurs—act quickly.

# Washing . . . Washing .. Washing!

BY THE side of many a stream in Europe you can see women doing the family wash in that old-back-breaking way. They carry, heavy baskets down to the stream—soak the clothes and scrub, scrub, or the bare boards and hard rocks.

Contrast that with the average Canadian home where washing is done in comparative ease. New labor-saving soaps and compounds eliminate much of the old scrubbing, even in home where electricity does not eliminate it all. Wash-day is over in a few short hours. Time for pleasure, for other thines, for these contrasts of the contrast o

Not only in washing, but in practically every phase of woman's work, new products and inventions are freeing her from home drudgery and slavery. She has leisure now and comforts that the average foreign woman cannot even imagine.

To a large measure this has been due to advertising. Advertis-ing has familiarized Canadian women with new inventions. Ad-vertising has made possible the wide distribution of new products. By increasing sales, advertising has reduced the price of modern household utilities to the reach of the modest purse.

Advertisements add new case to life.

# Portia's father was old-fashioned

IN THE days of Shakespeare's famous heroine, buying and sell-ing were conests of wits. In Venice, haggling and dickering were the vogue. Along the Rishlo, sharp practice was the rule. Every purchase of silk or spices was made at the buyer's risk. One had to be a shrewly judge of values and one's fellows to escape trick-

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Novadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commodities are identified for us by trade-about their products. Merchants describe their merchandise—marks. Manufacturers go to the advertising columns to tell us price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

## WILLYS-KNIC A Powerful, Luxurious Car -

For those who want the finest— the new Willys-Knight Six is more than a beautiful new car with a six-cylinder engine.

It far exceeds your greatest ex-pectation of high powered six-cylinder performance, because it has the greater smoothness, power and acceleration that comes only from the Willys-Knight sleeve-valve motor. It is powered with the only type of motor

that actually improves with use. that actually improves with use. The price of the new Willys-Knight Six is perhaps the most amazing thing about it. That a car of such extraordinary quality, powered with a six-cylinder sleeve-valve motor, can be priced on a level with the best poppet-valve sixes is the supreme accomplishment.

THIS little girl is speaking to you from the store windows of thousands of Congoleum merchants throughout the Dominion. She represents the thousands of happy children who have gained their mothers' closer companionship through Congoleum Gold-Seal Art Rugs. For with these rugs on their floors, mothers have more time for their children, more time for the things that every woman enjoys.

Spring cleaning and moving time offer an exceptional opportunity to change from old-fashioned, dust-collecting carpets to easily cleamed Congoleum Gold-Sord Rugs. They are law less expensive—will leave you money. Jor draperies and other furnishings—and in addition offer a charming variety of beautiful patterns for every room. for every room.

No Sweeping or Beating

No wonder housekepers everywhere are using Congoleum Gold-Sed Rugs all through the house. For all the cleaning a Congoleum Art-Rug ever needs is a quick going-over with a damp mop. How different from the tiresome aweeping and beating that wover floor-coverings cleanaed I And how infinitely more sanitary is the smooth, waterproof Congoleum surface.

Lie Flat without Fastening Unlike many woven floor-coverings, Congo-leum Art-Rugs are made in one piece. Another advantage: these rugs hug the floor never curl at the edges, never wrinkle.

# It's guaranteed pure and purity means value in soap -"

says Mrs. Experience, to housewives interested in saving.

"Of course, you know right away that I refer to Sunlightbecause Sunlight is the only laundry bar soap made in Canada that is guaranteed pure. A \$5,000 Guarantee of Purity goes with every bar; and according to the makers, this Guarantee has never once been challenged during the whole lifetime of Sunlight Soap.

"It's perfectly obvious, too, that when every particle of a soap is pure cleansing material -and not loaded with useless adulterants and hardening materials-then that soap has more, cleansing power and does more work with less labour. A little of it goes a long way. In short, it's really economical.

"That's why I always use and recommend Sunlight for the laundry, dishes and general housework. Sunlight keeps my hands soft and comfortable, too!" Lever Brothers Limited, Toronto, make it.

I will tell you that lee provides botter food BECAUSE provisions last longer, taste better and afford more real nourish-ment when they are kept at an even low tempera-ture in a well iced Refri-gerator.

## "Go ahead, but they must be up to the Studebaker standard-"

WITH this injunction, Studebaker Vengineers set out to design the Studebaker Standard Six and Special Six Coaches several months ago. There could be no compromise in quality. The new Studebaker Coaches had to maintain Studebaker's time-honored reputation for quality. They could be coaches IN NAME ONLY!

The new Standard Six Coach and the Special Six Coach are now on display in our showroom. They are high quality cars in every respect. Only the prices are low. You are invited to come in and see them.

Dependable ten years ago, and five years ago, and more dependable than ever today, Dodge Brothers Motor Carsimply represents the latest phase in a process of continual betterment.

The first cars Dodge Brothers built established a world-wide reputation. The cars they are building today incorporate the accumulated refinements of those ten intervening years.

That important improvements in the comfort and appearance of the car are made from time to time, implies no basic departure from Dodge Brothers traditional policy of progressive rather than seasonal development.

# Portia's father was old-fashioned

IN THE days of Shakespeare's famous heroine, buying and selling were consets of wits. In Yenice, haggling and dickering were the vogue. Along the Rials, sharp practice was the rule. Every purchess of silk or spices was made at the buying thick. One had to be a shrewly judge of values and one's fellows to escape tripkery:

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Nowadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commoditing are identified for us by tradeabout their products. Merchants describe their merchandiss—marks, Manufacturers go to the a dvertising columns to tell us price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

Do you read the advertisements?

crea ny these charming samp-proof ungels. Relieved from the labor and time required to sweep woven floor-coverings, women who own easy-to-clean Congoleum Rugs have more time for zercation—more time to devote to their children. A quick mopping makes Cangoleum spotless as new. Grazue or spilled things can not penetrate the smooth, saminary, surface.

#### Plan Now for the Summer

Now is a good time to buy Congoleum Gold-Seal Rugs. Dealers have an excellent assortment of patterns. Their stocks are fresh and new. Then, too, if you put down Congoleum Rugs when you clean house, your rooms will be sheer, ful and spotless all summer long.

And Congoleum Gold-Scal Rugs offer an ideal solution to the floor-covering problem in moun-tain camp, country cottage, or summer home.

Their durable, easily cleaned, economical qual-thes completely meet every requirement of sum-mer time—and there's the added advantage that in the fall they can easily be taken up and succed in the winter home.

Wherever you see this "child and boat" dis-play in a window you will know that the merchant is an authorized deaker in Congoleum Golf-Seaf Art-Rugs. See in and let him, show you the latest patterns; for no matter how fine the dis-play in his window, it's only an indication of the variety of designs he carries in stock.

In pattern, Congoleum Gold-Seal Art-Rugs offer everything from rich Oriental motifs to dainty floral and tile effects, You'll find it easy to select suitable designs for any room! Though Concoleum Ruga are laid without any kind of fastening, the corners and edges will not cuil.

TO MEET the insistent de-TO MEET the insistent and mand for the New Studebaker models. Studebaker's mammoth factories began, on April 1st, to produce over 500 cars per day!

But even this gigantic production has not been able to stem the tide of orders.

Orders from Canadian dealers for shipment during May were three times greater in number on May 1st, this year, than on the same date last year.

The demand for May follows on the heels of the April record -when sales showed an increase of 109 per cent over the same month last year.

The public knows that the New Studebaker models are a year in advance of current design. Knows that the greatest motor car value in Canada is the New Studebaker. Acting on this conviction, thousands of people, each month, are naming Studebaker as their choice of motor cars.

If you have not seen the 22 New Studebaker models, see them today. Learn for yourself why Studebaker has captured the favor of automobile buyers throughout the world!

#### 78 Years of Constant Growth and Improvement

In 1847, 78 years ago, David Kuntz founded in Waterloo the present as of the Kuntz Brewing Company, Limited.

tousness of the Kuntz ferency company, Limited.

A weah belief and a kitcher rouve, burning cordwood, cut from a nearby bush was the only plant that David Kuntz had with which to manufacture the layer and alth at is on finous clo-day. A keep mounted on a whetharrow punked by himself was the only means that he had of delivery. But he had wines, he had faith in the follows and he had the knowledge that a product well-made is a product that is near to create demand.

The years have brought youth to the Hope of Kuntz. The only thing old about it is its treasured good name. It is more than abreast of the time. It is alread of them with a striffe that still leads to the goal of accompliabment, because the house of Kuntz follows the only nucl to achievement—the Road of Quality.

Because the House of Kuntz brewed lager and ale of highest quality, in spite of all market conditions, the reputation gained nearly a century ago has endured through all these years and it is the broadest ambition of the company to maintain that reputation.

company to mannan mat reputation.

In 1870 Louis Kuntz and family took over the business and have gradually enlarged the plant and sale of Kuntz products. Although it is not he largest brevery in Canada, there was soore faunt 2½% inger and ale rold than that of any other brewery in the country during the period between 1916 and 1923.

Kuntz service has been real service. Located throughout the province to-day are 34 cold storages and warehouses, ready to give perfect service to dealers and patrons.

Kunze made and sold the most and best 2% per cent. They are going to make it per cent. and accordingly the most. Kuntz Products have no equal. They've been b

Success

"Sleepleaneam," Doctor Kra-nedy tolls us, "is one of the, commonest signal current. You was aboving signs of nervournees when you cannot keep from twitching your eyebroos, shruging one foot when your legs are crossed; or when you cannot sit at a deak or table without con-tingally tapping, with the fagers."

WHE warning symptoms, as outlined above, are well worth careful shudy because with this knowledge you can detect the indications of failing nervous enemy while yet there is time to prevent serious results. Your digestive system has failed to supply proper nourishment to the nervous system.

On this account outside help is necessary, such as Dr. Chase's Nerve Food, before you can get back your strength

You will not be using this restorative treatment long before you are sleeping, and resting better, appetite and digestion will improve and you find yourself well on the way to health and happiness.

## Portia's father was old-fashioned

\*

IN THE days of Shakespeare's famous heroine, buying and selt-ing were conests of wits. In Venice, haggling and dickering were the vogue. Along the Rialot, sharp practice was the rule. Every purchase of silk or spices was made at the buyer's risk. One had to be a shrewly judge of values and one's fellows to escape trick-

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Nowadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commodities are identified for us by tradeabout their products. Merchants describe sheir merchandiss—marks. Manufacturers go to the a dvertising columns to tell us price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

The Secret of

Successful Baking

VERY time you are in a crowd-a EVER I time you are in a street-car, a train, a theatre—you are in constant danger of absorbing some kind of infection. Everything you touch, that is handled by others, is a germ carrier.

Germs allowed to remain on your hands will in time almost surely pass to your nose or mouth or be 'deposited on food.

But the ever-imminent danger of contagion is almost completely removed if you purify your hands and face frequently with Lifebuoy Health Soap.

A wonderful health element in Lifebuoy

The creamy Lifebuoy lather carries a wonderful health element deep into every pore. It counteracts any infection which may have been partially absorbed by the skin. Lifebuoy cleanes aniiepiically.

Lifebuoy is pure and gentle

Because of the absolute purity of its ingredients. Lifebuoy is mild and pleasing, yet delightfully stimulating, to the skin. The daily use of Lifebuoy keeps your complexion fresh, clear, glowing with health.

The pure, clean health odour of Lifebury Soap realistes almost instantly ofter using but the presection remains.

HER nine long years you can again the your glass and let Brading's slowly rickle into it.

From the creamy foam in every glass of Brading's Stag's Head Ale there bubbles up for you, a vision of sweet smelling hops.

look forthe

of endless acres of swaying Canadian Barley ripening brown in the autumn sun.

of water drawn from rocky springs, pure and crystal clear, of a Brewmaster blending these gifts of nature with the care of

an expert skilled in his art. This is the story in every bottle of Brading's-the Ale.

Aged in wooden casks by old time, natural, leisurely methods, it has come back to you after nine long years of absence.

As Lovely as the Day it was Purchased

A cherished article of apparel, a gown, dainty and elusive as a moonbeam was about to be discarded.

The fabric and shade were believed to be too delicate to undergo successfully an attempt at cleaning.

However, it was such a lovely thing that it was thought worth a trial so it was sent to the "Modern"

Dry Cleaners and Dyers.

Le! when it was returned it was fairly breath taking in its fresh new beauty.

is causing widespread comment. It is a perfectly logical happening, for no other four delivers the Maxwell combination of 58 miles an hour, 5 to 25 miles in 8 seconds, and 30 miles to a gailon of gasoline.

But there are still greater satisfactions for the Maxwell owner. The car is completely manufactured within its own great plants. This is an advantage of gesuite importance to the buyer. In no other you could you be assured of the quality that distinguishes the new good Maxwell from all other four.

It is this high quality that accounts very largely for the dependable nature of Maxwell performance, the car's durability and, above all, costs of operation and maintenance so low as to create a new stand-ard of economy.

We are always eager to demonstrate the new good Maxwell, for a ride in the car proves at once that it offers more fine motoring than was ever before available at the price.

Measure the

Value!

sure the Values offered by

Use this list of Studebaker features and von'll realize that Studebaker offers much more for the purchase price-more in comfort and convenience, more in performance and dependability. If a car sells for the same price as the Studebaker, you can be sure it does not embody the same high standard of quality.

If a car does embody the same high quality, you can be equally sure, it sells for a much higher price.

These are strong statements. We make them because they can be proved. We urge you to

Measure the value of

any car you have in mind against any one of the 22

new Studebaker models.

The result will prove that the new Studebakers

are not only a year ahead of current motor car de-

sign - but also that they

offer the greatest motor car values in Canada.

## Portia's father was old-fashioned

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

IN THE days of Shakespeare's famous heroine, buying and selt-ing were conests of wits. In Venice, baggling and dickering were the vogue. Along the Ritalo sharp gractice was the rule. Every purchase of silk or spices was made at the buyer's rail. One had to be a shrewly judge of values and one's fellows to escape trick-

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Nowadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commodities are identified for us by tradeabout their products. Merchants describe their merchandise—marks, Manufacturers go to the a dvertising columns to tell us price, quality and service.

By reading advertisements, we get a knowledge of goods and es that we can depend on. Advertising reduces chance, in buying, to a minimum.

Do you read the advertisements?

#### D. Barristani Portia's father was old-fashioned

IN THE days of Shakespeare's famous heroine, buying and seli-ing were conests of with. In Venice, haggling and dickering were the vogue. Along the Rilato, sharp practice was the rule. Every purchase of silk or spices was made at the buyer's risk. One had to be a shrewly judge of values and one's fellows to ekspea trick-

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed instural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Nowadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commodities are identified for us by trade-about their products. Merchants describe their merchandise—marks, Manufacturers go to the a dvertising columns to tell us price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

Do you read the advertisements?

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

\*

IN THE days of Shakespeare's famous seroine, buying and seling were consists of wils. In Yenice, haggling and dickering were the vogue, -Along the Risko, sharp praticle was the rule. Every purchase of silk or spices was made at the buyer's risk. One had to be a shreed judge of values and one's fellows to escape trick.

Portia's father—a merchant—was used to the ideas of guess, luck shift schitcmt. So much no, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three clos-ed casked and a fuckly guess!

Novadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commodities are identified, for us by trade-about their products. Merchants describe their merchandise—marks. Manifecturers go to the a dvertising columns to tell us price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

that Marshall mattress which makes you sleep
"The sleep of the just."

Marshall mattresses are made up of hundreds of tiny steel springs that gently caress the lines of the body, conforming to every movement and pressure. Springs that give Marshalls their extraordinary strength, resiliency and ventilation.

When buying a mattress look for the Marshall label. It carries a five-year guarantee. It means cleanliness, comfort and sanitation. For it is the trade-mark of the world's only perfect, mattress.

Why thousands of Fords now run more smoothly

A new economy oil made exclusively for Fords has made this possible

WHEREVER you drive user, you will need;
Ford cars that have acquired a new case,
and efficiency of operation. They run
more quietly and develop more power. There
is a complete sheece of jerky chipter when they
start, stop and verves. They are seldom sent to
the skop for overhauling or engine repairs.

This marked improvement in the operation has been made possible through the use of a new economy oil. This oil is Veedol Forzol.

How to make your Ford operate more smoothly

Tour Ford, too, can have this same smoothness and economy if; you mee Yeedol Fornol, Veedol Fornol makes this possible because it is specially designed to jubricate both the Fordengins and transmission which must be jubristed by one and the same oil. Veedol Porzol does both these Pord lubriestion jobs perfectly. It was created by Tide Water engineers only after tou years of thorough scientific experiment, supported by hundreds of practical road touts. Veedol Porzol is made for Portic scripiavey. It gives these 8 economies in operation.

The Eight Economies of Veedol Forzol

1. 10 to 25% gazolino arriag.
2. 10 to 25% saving in call coast.
3. 10 to 25% less car7. Resists fuel dilution.

3. 10 to 25% less car- 7. Resists fuel dilution ben. 4. Eliminates costly chat- 2. Reduces repair bills.

Verdol Forzol is sold by dealers displaying the orange and black Verdol Forzol sign. Have your crankease drained and refilled to-day.

# Unfaltering Results

The Chrysler Six delivers more power and speed with a given bore and stroke and at a given number of revolutions per minute than any other car.

It was not only designed and built to deliver more, but to continue to de-liver more with unfailing regularity.

This enduring nature has earned for the Chrysler Six a remarkable distinction. Owners say it is the best built car on the market today because they have driven their cars tens of

thousands of miles and are enjoying a quality of performance no other car equals—

Thesame brilliance, the same eagerness that astonished and delighted them the first day they drove—always unequaled and unfaltering performance.

No other motorists are enjoying the same results, no others are enjoying the same inherent roadability made still more wonderful by remarkably effective stabilators. Let us show you what these results are like.
